

Soldering Station, QUICK236ESD

Features

1. Ceramic heater has a long lifetime.
2. Light handle is suitable for long time of use.
3. Calibrate temperature digitally.
4. New appearance and firm structure.
5. Various types of tips are available.
6. ESD safe design.
7. It is especially suitable for mounting and reworking SMD components by hand, soldering common and directly-inserted electronics, or lead free soldering under other special conditions.

Specifications

Power consumption	90W
Temperature range	80°C-480°C
Temperature stability	±2 °C(stationary air, no load)
Ambient temperature(Max)	40°C
Heater operating voltage	30V AC
Tip to ground potential	<2mV
Tip to ground resistance	<2Ω
Length of handle wire	1.2 meter
Length of handle only(without wire)	190 mm
Dimensions	160(L)*105(W)*125(H)mm
Weight	About 2.6kg

Replaceable tips
